

## Adding a Favicon

### Web Page Design 1

1. A favicon is the little icon that you see in the tab area of a webpage:

2. Start by creating the icon image. Your favicon image should be:

- square,
- on a transparent background,
- 32px by 32 px or less,
- in **.png format.**

3. Add favicon code **inside the head element** of your webpage:

```
<link rel="icon" type="image/png" href="images/green_killer.png">
```

 Path to icon image
