

ASSIGNMENT 3 - 100K SCUBA

Due Tuesday, Oct. 2 at 6:45. At 7:00, we'll have a crit.

In this assignment you are given some text and some graphics files. Your job is to make a **multipage** web site out of these files. You must use all of the graphics files and the site must be **under 100K**. Decide how large you want to make each of the images and what is the best way to compress them. (JPEG, GIF ...)

You will need a number of files for this project. They're available for download in a zipped folder on Bettyopolis. Check the page for the assignment.

They are all PSD or Illustrator files so you will need to convert them.

Here's a list of the files:

PSD

- diver.psd
- sand_water.psd
- deepdown.psd
- fish2.psd
- beach.psd

Illustrator

- scubadiver
- scubaequipment

Text

- divertext.txt

You will be graded on these criteria:

- Code Structure (paired tags - html, head, title, body, etc.) - 5 points
- Alignment of text and graphics on page; overall placement of images and text; color choices of text and background - 3 points
- Use of all 7 images supplies - 7 points
- Optimized all images appropriately - 3 points
- Use of image source tag with attributes for all images - 2 points
